

CONTENTS No 01 – 11/2013

1. Dr. Kieu Tran Duy: <i>Trend in historical floods in Lam river basin.</i>	3
2. Asso Pro. PhD. Bui Xuan Thong, PhD. Tran Quang Tien, Eng. Bui Duc Toan: <i>Identification of speed of sea level rise at monitoring stations in south west - east coast of Vietnam.</i>	8
3. Asso Pro. PhD. Hoang Ngoc Quang, Dr. Nguyen Viet Thi: <i>Application HEC - HMS simulation flood process in river Vu Gia – Thu Bon.</i>	14
4. Msc. Nguyen Dang Mau, Dr. Tran Quang Duc, Dr. Hoang Duc Cuong: <i>Coupling REGCM3 with the CAM 3.0 model for climate simulation over Vietnam.</i>	22
5. Dr. Bui Du Duong, Dr. Tran Duy Kieu, Msc. Tong Ngoc Thanh, Msc. Hoang Thi Nguyet Minh: <i>A conceptual framework for urban flood risk management</i>	29
6. Dr. Pham Thi Hoa: <i>Adding pragmatic formular for determining terrain effect in vertical deflection.</i>	36
7. Dr. Dinh Xuan Vinh: <i>Modern deformation analytical methods.</i>	40
8. Dr. Vu Danh Tuyen , Dr. Trinh Le Hung: <i>New method for coastline change detection based on multi – temporal image classification.</i>	48
9. Msc. Le Anh Cuong: <i>Research on application of recurrent adjustment method for geodetic data processing.</i>	54
10. Msc. Tran Thi Ngoan, Msc. Vuong Thi Hoe: <i>Buiding a set of art symbols for establishment of planning and agricultural maps.</i>	60
11. Dr. Huynh Phu: <i>An application of mathematical models to study the water quality of La Nga river of Binh Thuan.</i>	65
12. Dr. Le Thi Trinh: <i>Basic research in lead absorption in soil for Alternanthera philoxeroides.</i>	74
13. Msc. Bui Thi Thu: <i>Study on determination of metal ions in water supply and wastewater by extraction – spectrophotometry method in Tu Liem of Ha Noi.</i>	79
14. Msc. Hoang Thi Hue: <i>Estimation of economic value for Dam Vac ecosytem, Vinh Yen city, Vinh Phuc province.</i>	85
15. Eng. Nguyen Thi Vinh Hang, Dr. Do Khac Uan: <i>Evaluating the effects of hydraulic retention time on domestic wastewater treatment using SBR operated at low sludge retention time.</i>	91
16. Dr. Le Canh Tuan: <i>The significance of Geomorphology to geohazards study.</i>	97
17. Msc. Nguyen Van Binh, Msc. Tran Van Vu: <i>Research on characteristics distribution of soft soil layers in holocene age for planning contruction in some district of center Hai Phong city.</i>	103
18. Dr. Nguyen Hoan, Msc. Nguyen Tan Huyen: <i>The economics of climate change: theory and practice.</i>	114
19. Asso Pro. PhD. Vu Van Phai, Luu Thanh Trung, Asso Pro. PhD. Nguyen Hieu, Msc. Duong Tuan Ngoc, Ba. Vu Le Phuong, Msc. Tran Duy Hien: <i>A systematic approach in studying and assessment of shoreline change for coastal erosion management.</i>	118
