

CONTENTS No 02 – 3/2014

1. **Asso Pro. PhD. Pham Quy Nhan, Vu Ngoc Tran, Tran Thanh Le:** DRASTICFm method for vulnerability assessment of fractured aquifers in Buon Ma Thuot City. **3**
2. **Asso Pro. PhD. Hoang Ngoc Quang, Eng. Bui Duc Toan, Eng. Dao Hoang Tung:** Making specialized maps and utilizing the results of their numerical simulation to provide a scientific and technical basis for planning maps of Phu Quoc, Con Dao marine space. **11**
3. **Dr. Huynh Phu:** Operation, maintenance and management models for clean water supply systems in the Binh Luc district Ha Nam province. **18**
4. **Nguyen Minh Ky:** The study and evaluation of students' awareness of climate change in Thua Thien Hue province. **26**
5. **Dr. Trinh Huu Lien, Pham Anh Tuan, Nguyen Thanh Hung:** Gis technology application in establishing the database of current land use from the database of digital cadastral map serving land management. **32**
6. **Msc. Nguyen Quang Tuan, Msc. Nguyen Quyet:** The relationship between economic growth and carbon dioxide emissions in Viet Nam. **36**
7. **Dr. Nguyen Thu Huyen:** Research on optimal mixing ratio between faecal sludge and organic waste in the aerobic treatment process (Composting). **43**
8. **Dr. Hoang Ngoc Khac, Nguyen Van Dung:** The status quo of exploiting red sesamid crab (*Smithi neosarmatium* H.Milne Edwards, 1853) in Ramsa, Xuan Thuy district, Nam Dinh province. **50**
9. **Dr. Nguyen The Hung:** Evaluating the ability of carbon accumulation in overground biomass in Acacia forest (*Acacia mangium* x *Acacia auriculiformis*) in Dinh Hoa district, Thai Nguyen province. **57**
10. **Dr. Luu Van Huyen, Asso Pro. PhD. Pham Quoc:** Research on the ideal condition of symbioticing Zooxanthellae algae's isolating process in oceanic coral cells. **63**
11. **Msc. Do Xuan Duc, Msc. Vu Thi Nu:** Research some Experience of Integrating Natural Resource Use and Environmental Protection of the Thai Ethnic Community living adjacent to Son La Hydropower Reservoir. **68**
12. **Msc. Nguyen Van Binh:** Analyzing and evaluating effects of geotechnical properties and distribution of soft soil layers on land subsidence in western area of Ha Noi city. **76**
13. **Dr. Nguyen Thi Thuc Anh, Kham Pha Phom Ma Kay Son:** The potential of Bauxite Mineral in Dakchung Area, Sekong province (Southern of Laos), signification in economics development and Co-operation between Viet Nam and Laos. **85**
14. **Dr. Trinh Le Hung, Dr. Vu Danh Tuyen:** Applying remote sensing technology in researching soil moisture on the basic of temperature vegetation dryness index. **92**
15. **Dr. Dang Tran Chien:** Research on photovoltaic solar cells to gradually replace traditional fossil energy. **98**
16. **Msc. Phung Thi Hong Van, Asso Pro. PhD. Nguyen Van Hieu, Dr. Nguyen Duc Hoa:** The relationship between economic growth and carbon dioxide emissions in Viet Nam. **104**
