

CONTENTS No 03 – 6/2014

1. Dr. Pham Thi Hoa: Surveing of interpolation methods for determining terrain effect in deflection of the vertical.	3
2. Dr. Vu Danh Tuyen, Dr. Trinh Le Hung: Studies of land surface temperature distribution using thermal infrared image LANDSAT data.	8
3. Dr. Dinh Xuan Vinh: Assessment method of the stability of reference points in monitoring deformation of construction.	13
4. MSc. Nguyen Thai Chinh; MSc. Le Thi Nhung: The reasonable relationship between the accuracy of angular measurement and the accuracy of liner measurement in horizontal control networks.	25
5. MSc. Nguyen Xuan Thuy: Method to determine space location variation of GPS points based on remeasure results of gps network in two cycles remeasure.	30
6. Dr. Nguyen The Cong: Researching method to data exchange through shapefile.	36
7. Dr. Nguyen Thị Hai Yen; MSc. Tran Xuan Bien: The relationship between land use planning and planning of building new rural areas (Appication in Xuan Quang commune, Chiem Hoa district, Tuyên Quang province).	41
8. Dr. Trinh Huu Lien: Technical establishment land prices zone and relation between land prices areas land prices for solving land valuation mass with mass market price survey.	50
9. Dr. Huynh Phu: Method for calculating WQI index to assess the water quality status of Cai river - Phan Rang, Ninh Thuan.	58
10. BSc. Trinh Xuan Manh: Study on drainage capacity serving construction of communications in Tra Khuc left bank - Son Tinh district Quang Ngai province.	66
11. MSc. Tran Van Tinh: Application of the HEC model for setting inundation mapping in the downstream area of Vu Gia - Thu Bon basin.	75
12. Dr. Le Quoc Hung; MSc. Vu Thi Phuong Thao; MSc. Le Thi Mai Van; MSc. Nguyen Ngoc Quang: Building reservoir warer resource scenarios in combination between remote sensing technology and hydrological - hydraulic models and preliminary damage assessment in the case of dam break.	82
13. BSc. Đinh Thị Hồng Van; BSc. Nguyen Thanh Luan: Study on the circulation of Nha Trang bay using MIKE 21 model.	89
14. MSc. Pham Van Chung: Characteristics of petrology - geochemistry and origins granitoids of mountain Nui Dieng assemblage area Tam Dao.	97
15. MSc. Nguyen Thi Anh Tuyet; Assoc. Prof. Dr. Nguyen Van Noi: Development of organoclays from Thanh Hoa bentonite and their sorptive characteristic towards direct blue - 53 in pollution water.	104
16. Dr. Pham Thi Thuy; Dr. Đàng Tran Chien: Synthesis study of GaP NANO crystals used for application in cleaning water technology.	109
