

ANNOUNCEMENT

Organized the workshop "*Green campus - Towards environmental protection and sustainable development*" at Hanoi University of Natural Resources and Environment

For the purpose of summarizing the scientific and technological research activities of Hanoi University of Natural Resources and Environment (HUNRE): achievements, limitations and development orientations in the coming years; At the same time, the workshop is a forum for the exchange of scientific information among staffs, lecturers and students of HUNRE with other scientists, especially in the linkage of natural resources field and green growth as well as the role of universities in improving public awareness in environmental protection and sustainable development.

The workshop also provides a precious opportunity for students, lecturers, scientists, and managers to share scientific research results and experiences in the field of natural resources and environment.

HUNRE held a scientific workshop with topic "**Green campus - Towards environmental protection and sustainable development**". This is an important annual event of HUNRE and is an essential activity in the series of actions that are activating at HUNRE in order to celebrate the Vietnamese Teacher's Day.

1. Time: from 8 a.m to 12 p.m, 16th November 2017.

2. Revenue: Hanoi University of Natural Resources and Environment.
